### Kuisisioner Pengetahuan

**Judul : GAMBARAN PENGETAHUAN DAN SIKAP TERHADAP PENGGUNAAN *ANTIACNE* PADA SISWI MADRASAH ALIYAH NEGERI (MAN) 3 MEDAN.**

Survei ini dilakukan untuk penulisan Karya Tulis Ilmiah, oleh karena itu Siswi diharapkan mengisi jawaban pada setiap pertanyaan yang diajukan dengan jujur dan terbuka atas perhatiannya, saya ucapkan terima kasih.

### Data Responden

**Nama :**  
**Kelas :**  
**Jenis Kelamin : (Perempuan)**  
**Uang Jajan/ Hari : a.  $\leq 10.000$**   
**b. 10.000 – 20.000**  
**c. 21.000 – 30.000**  
**d.  $\geq 30.000$**   
**Pekerjaan Orang Tua : a. PNS**  
**b. Wiraswasta**  
**c. Petani**  
**d. Pekerja tidak tetap**

**A. Pengetahuan Responden Siswi Kelas XI Jurusan IPA MAN 3 Medan terhadap Penggunaan *Antiacne*.**

1. Jawablah pertanyaan dibawah ini dengan memberi tanda ceklis (✓) pada kolom “Ya” atau “Tidak” yang tersedia.
2. Jawablah sesuai dengan pengetahuan Anda.

| No  | Pertanyaan                                                                                                                                   |    |       |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------|----|-------|
|     |                                                                                                                                              | Ya | Tidak |
| 1.  | Jerawat adalah peradangan kulit akibat bakteri dan atau kotoran.                                                                             |    |       |
| 2.  | <i>Antiacne</i> adalah produk atau bahan yang memiliki kandungan untuk menyembuhkan atau mengatasi permasalahan jerawat.                     |    |       |
| 3.  | Jerawat dapat bertambah parah jika diobati.                                                                                                  |    |       |
| 4.  | Apakah anda mengetahui zat yang terkandung pada produk <i>antiacne</i> .                                                                     |    |       |
| 5.  | Apakah produk <i>antiacne</i> yang beredar sudah harus teruji BPOM.                                                                          |    |       |
| 6.  | Asam salisilat adalah senyawa zat kimia yang biasa terkandung dalam produk <i>antiacne</i> memiliki konsentrasi yang aman yaitu 0,3% - 2%.   |    |       |
| 7.  | Sulfur yang terkandung pada <i>antiacne</i> biasanya memiliki konsentrasi 3% - 10%.                                                          |    |       |
| 8.  | Asam salisilat, sulfur, benzoil peroksida, resorsinol adalah zat aktif yang digunakan pada produk <i>antiacne</i> oral (dalam).              |    |       |
| 9.  | Anda mengetahui keamanan produk <i>antiacne</i> yang digunakan.                                                                              |    |       |
| 10. | Lidah buaya, putih telur, air lemon, tomat, papaya, mentimun merupakan bahan-bahan alami yang sering digunakan pada produk <i>antiacne</i> . |    |       |

## Kuesioner Sikap

### B. Sikap Responden Siswi Kelas XI Jurusan IPA MAN 3 Medan Terhadap Penggunaan *Antiacne*.

| No  | Pernyataan                                                                                                                               | SS | S | TS | STS |
|-----|------------------------------------------------------------------------------------------------------------------------------------------|----|---|----|-----|
| 1.  | Saya merasa tidak terganggu dengan adanya jerawat.                                                                                       |    |   |    |     |
| 2.  | Saya tidak khawatir timbul jerawat meskipun banyak memakan coklat dan junk food.                                                         |    |   |    |     |
| 3.  | Saya merasa perlu menggunakan produk physical treatments (scrub, pore pack dan paper oil) untuk mencegah jerawat.                        |    |   |    |     |
| 4.  | Saya harus mengetahui kandungan berkhasiat pada produk <i>antiacne</i> seperti asam salisilat, sulfur, benzoil peroksida dan resorsinol. |    |   |    |     |
| 5.  | Saya lebih memilih produk yang mengandung air lemon, tomat dan putih telur.                                                              |    |   |    |     |
| 6.  | Memilih <i>antiacne</i> sesuai dengan tipe jerawat.                                                                                      |    |   |    |     |
| 7.  | Memilih produk <i>antiacne</i> yang sesuai dengan tipe kulit.                                                                            |    |   |    |     |
| 8.  | Mengetahui keamanan dan komposisi produk <i>antiacne</i> yang tertulis pada kemasan sebelum menggunakannya.                              |    |   |    |     |
| 9.  | Lebih memilih menggunakan bahan alami dari pada obat kimia untuk mengatasi jerawat.                                                      |    |   |    |     |
| 10. | Memilih kandungan produk <i>antiacne</i> sesuai dengan ketentuan BPOM.                                                                   |    |   |    |     |
| 11. | Mencari informasi mengenai keamanan produk <i>antiacne</i> .                                                                             |    |   |    |     |
| 12. | Saya menggunakan produk <i>antiacne</i> yang sudah harus terdaftar BPOM.                                                                 |    |   |    |     |

Skor maksimal seluruh responden = bobot jawaban benar x jumlah responden x

Jumlah soal

$$= 1 \times 55 \times 10 = 550$$

Jadi jumlah seluruh skor tingkat pengetahuan responden terhadap penggunaan *antiacne* adalah:

$$= \frac{418}{550} \times 100\% = 76\%$$

Maka pengetahuan responden terhadap penggunaan *antiacne* adalah baik.

Skor maksimal seluruh responden = bobot jawaban benar x jumlah responden x  
Jumlah soal

$$= 1 \times 55 \times 48 = 2.640$$

Jadi jumlah seluruh skor tingkat pengetahuan responden terhadap penggunaan *antiacne* adalah:

$$= \frac{2041}{2640} \times 100\% = 77\%$$

Maka sikap responden terhadap penggunaan *antiacne* adalah baik.

## UJI VALIDITAS SIKAP (X2)

| Variabel | Item  | r Tabel | r Hitung | Keterangan |
|----------|-------|---------|----------|------------|
| Sikap    | X2_1  | 0.361   | 0.680    | Valid      |
|          | X2_2  | 0.361   | 0.418    | Valid      |
|          | X2_3  | 0.361   | 0.709    | Valid      |
|          | X2_4  | 0.361   | 0.385    | Valid      |
|          | X2_5  | 0.361   | 0.538    | Valid      |
|          | X2_6  | 0.361   | 0.736    | Valid      |
|          | X2_7  | 0.361   | 0.767    | Valid      |
|          | X2_8  | 0.361   | 0.760    | Valid      |
|          | X2_9  | 0.361   | 0.733    | Valid      |
|          | X2_10 | 0.361   | 0.775    | Valid      |
|          | X2_11 | 0.361   | 0.692    | Valid      |
|          | X2_12 | 0.361   | 0.617    | Valid      |

Berdasarkan hasil perhitungan uji validitas variabel sikap (X2) dinyatakan valid karena hasil dari r hitung > r table (r table 0.361 dengan jumlah responden n = 28).
