### **Persetujuan Menjadi Responden Penelitian**

Judul : Gambaran Pengetahuan, Sikap dan Tindakan terhadap penggunaan *sunscreen* pada Mahasiswi Jurusan Kebidanan Prodi D-IV Poltekkes Kemenkes Medan

Peneliti : Merry Hariani Sianturi

NIM : P07539021024

Riset ini dilakukan dalam rangka aktivitas akademik pada Jurusan Farmasi Poltekkes Kemenkes Medan, Mahasiswa diberi kewajiban melakukan penelitian yang merupakan bagian kurikulum D-III Farmasi.

Saya mengharapkan kontribusi Anda memberi dukungan Saya untuk pelaksanaan penelitian ini secara sukarela dengan bersedia menjadi responden. Atas perhatiannya Saya ucapkan terimakasih.

Medan, Mei 2024

**GAMBARAN PENGETAHUAN, SIKAP DAN TINDAKAN TERHADAP  
PENGUNAAN SUNSCREEN PADA MAHASISWI JURUSAN  
KEBIDANAN PRODI D-IV POLTEKKES  
KEMENKES MEDAN**

Pertanyaan-pertanyaan berikut ditujukan dalam meninjau sejauhmana deskripsi wawasan, perlakuan serta tindakan-tindakan pada pemakaian tabir surya di mahasiswa Jurusan Kebidanan Prodi D-IV Poltekkes Kemenkkes Medan. Temuan dari riset yang dilakukan akan dipergunakan sebagai syarat dalam menuntaskan masa studi Program Pendidikan Diploma III di politeknik Kesehatan Kementrian Kesehatan

Petunjuk:

1. Isilah identitas anda dengan benar
2. Pilih jawaban yang dianggap palingsesuai, beri tanda ceklis(√)

No. Responden :

Tanggal Pengisian :

Data Karakteristik Responden

a. Nama (Inisial) :

b. Usia :

c. Kelas

## PENGETAHUAN

Wawasan mahasiswa pada pemakaian tabir surya

Petunjuk:

1. Jawab pertanyaan-pertanyaan di bawah ini , beri tanda cek (√) pada kolom “Ya” (Y) ataupun “Tidak” (T) yang sudah disediakan
2. Jawablah sesuai dengan pendapat pribadi

| NO  | Pertanyaan                                                                                                                                                                                                               | Ya | Tidak |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-------|
| 1.  | <i>Sunscreen</i> adalah pelindung yang bekerja menyerap sinar matahari                                                                                                                                                   |    |       |
| 2.  | <i>Sunscreen</i> digunakan 1-2 jam sebelum melakukan aktivitas diluar ruangan                                                                                                                                            |    |       |
| 3.  | Hanya ada 2 jenis <i>sunscreen</i>                                                                                                                                                                                       |    |       |
| 4.  | Penggunaan <i>sunscreen</i> dapat mencegah kanker kulit                                                                                                                                                                  |    |       |
| 5.  | Pengulangan <i>sunscreen</i> perlu setelah berkeringat dan berenang                                                                                                                                                      |    |       |
| 6.  | Dampak akut dari pajanan sinar UV dapat menyebabkan kulit kemerahan, terasa seperti terbakar                                                                                                                             |    |       |
| 7.  | Apakah anda mengetahui <i>Broad Spectrum Sunscreen</i> ( <i>sunscreen</i> spektrum luas) merupakan <i>sunscreen</i> yang dapat melindungi kulit dari radiasi sinar UVA dan UVB?                                          |    |       |
| 8.  | Apakah <i>tabir surya mampu</i> melindungi kulit sepenuhnya dari pajanan sinar UV?                                                                                                                                       |    |       |
| 9.  | Apakah anda mengetahui dampak akut dari paparan sinar UV dapat menyebabkan kulit kemerahan, seperti terbakar?                                                                                                            |    |       |
| 10. | <i>Chemical sunscreen (organic sunscreen)</i> adalah pelindung yang bekerja dengan menyerap sinar matahari, sedangkan <i>Physical sunscreen (anorganic sunscreen/sunblock)</i> bekerja dengan memantulkan sinar matahari |    |       |

## SIKAP

Sikap responden terhadap penggunaan *sunscreen*

Petunjuk:

1. Jawablah pertanyaan dibawah ini dengan memberi tanda chek (✓) pada kolom yang disediakan sesuai pilihan anda.
2. Pilihan yang disediakan:  
SS : Sangat Setuju  
S : Setuju  
TS : Tidak Setuju  
STS : Sangat Tidak Setuju

| NO  | Pertanyaan                                                                                              | SS | S | TS | STS |
|-----|---------------------------------------------------------------------------------------------------------|----|---|----|-----|
| 1.  | Saya menggunakan <i>sunscreen</i> secara teratur setiap hari                                            |    |   |    |     |
| 2.  | Saya mengoleskan ulang <i>sunscreen</i> sebelum berenang dan setelah berenang dan berkeringat           |    |   |    |     |
| 3.  | Saya memilih <i>sunscreen</i> yang memiliki SPF paling tinggi                                           |    |   |    |     |
| 4.  | Saya memilih <i>sunscreen</i> yang memiliki perlindungan UVA dan UVB                                    |    |   |    |     |
| 5.  | Saya memperhatikan tanggal kedaluwarsa <i>sunscreen</i> yang saya gunakan                               |    |   |    |     |
| 6.  | Penggunaan <i>sunscreen</i> diluar ruangan itu sangat perlu                                             |    |   |    |     |
| 7.  | Saya mengetahui dampak dari pajanan sinar UV                                                            |    |   |    |     |
| 8.  | Saya memperhatikan tingkat SPF dalam <i>sunscreen</i> yang saya gunakan karena itu penting              |    |   |    |     |
| 9.  | Apakah anda setuju bahwa penggunaan <i>sunscreen</i> penting dalam melindungi kulit dari sinar matahari |    |   |    |     |
| 10. | Apakah anda setuju bahwa penggunaan <i>sunscreen</i> dalam kegiatan diluar ruangan itu perlu?           |    |   |    |     |

## TINDAKAN

Tindakan responden terhadap penggunaan *sunscreen*

Petunjuk:

1. Jawablah pertanyaan dibawah ini dengan memberi tanda chek (✓) pada kolom yang disediakan sesuai pilihan anda.
2. Jawaban benar-benar sesuai dengan yang anda ketahui

| NO  | Pertanyaan                                                                         | Ya | Tidak |
|-----|------------------------------------------------------------------------------------|----|-------|
| 1.  | Apakah anda selalu menggunakan sunscreen ketika melakukan kegiatan diluar ruangan? |    |       |
| 2.  | Anda mengoleskan ulang sunscreen setiap 2 jam setelah pemakaian                    |    |       |
| 3.  | Anda menggunakan sunscreen 15-30 menit sebelum melakukan aktivitas diluar ruangan  |    |       |
| 4.  | Apakah anda selalu mengoleskan ulang sunscreen setelah berkeringat?                |    |       |
| 5.  | Anda membeli kembali sunscreen apabila sunscreen yang anda miliki sudah habis?     |    |       |
| 6.  | Anda menggunakan sunscreen secara teratur setiap hari?                             |    |       |
| 7.  | Apakah anda memperhatikan tanggal kedaluwarsa sunscreen yang anda gunakan?         |    |       |
| 8.  | Saya hanya mengoleskan sunscreen sekali saja dalam sehari                          |    |       |
| 9.  | Saya selalu membeli sunscreen yang baru sebelum sunscreen yang lama habis.         |    |       |
| 10. | Saya tidak menggunakan sunscreen apabila sedang berenang.                          |    |       |

*Jumlah skor yang didapat*

$$\begin{aligned}
 & \frac{\text{Total seluruh skor}}{\text{Jumlah skor}} \times 100\% \\
 &= \frac{705}{1120} \times 100\% \\
 &= 63\% \text{ (cukup baik)}
 \end{aligned}$$

Maka, Pengetahuan Mahasiswi Jurusan Kebidanan Prodi D-IV Poltekkes Kemenkes Medan terhadap penggunaan sunscreen adalah cukup baik.
